Shielded Switchgear 15KV  
Tested according to technical  
standards

Founded in 2002 by a group of professional people working in the electrical panel area since 1979. VR Painéis reinvents itself every day to be an innovative company. We believe that knowing the business of our customers is necessary to develop smart solutions and invest in leading-edge technology to service each market segment.

Specialized in the production of low- and medium-voltage electrical panels, VR Painéis offers a broad product mix, which is present in large works throughout the country and abroad. This is a result from our technical competence and specific solutions developed to each individual customer.

Quality proven by the ISO 9001/2008 certification, the products are also manufactured according to specifications provisioned in NBR-IEC 60439-1, 62271-200, 14039 and NR 10 standards, in addition to TTA/PTTA certifications and internal arc assays, tested at the most qualified laboratories at CEPEL-RJ and USP-SP.
